

FE 201

Intermediate Facilities Engineering

Intermediate Facilities Engineering is the Level II certification course in the Facilities Engineering (FE) career field. It provides a broad understanding of the overall facilities engineering process and the roles/responsibilities of acquisition team members as they relate to the facility life cycle in support of military missions. The course is designed to teach the student when to seek the assistance of professionals in various specialty areas.

Objectives: Students who successfully complete this course will be able to:

- discuss program management components, contracting procedures, and design and construction processes relating to FE projects;
- discuss and apply financial laws, regulations, and procedures;
- identify when there is a real estate acquisition, management, or disposal component;
- apply environmental requirements that arise during the DoD facility life cycle;
- describe basic elements of the comprehensive planning and project planning processes;
- describe elements used to manage sustainment, restoration, and modernization; and
- relate the contingency engineering process to FE requirements.

Who Should Attend: This course is for intermediate-level facilities engineering personnel with Level I Facilities Engineering certification and 2 years of facilities engineering experience.

Prerequisite: ACQ 101

Length: This is a nonresident, self-paced course available through the Internet. Students must pass a final examination within 60 calendar days of the start date.

Method of Delivery: Distance Learning—See “Online Courses” on page 12

PDS Code: JHM

GRT 201

Grants and Agreements Management

Grants and Agreements Management presents the foundational knowledge required to begin service as a grants officer. The course provides the information needed to resolve relevant assistance issues by applying knowledge, discretion, and judgment.

Objectives: Students who successfully complete this course will be able to:

- explain the qualitative differences among instruments available for obligating Federal dollars and choose the most appropriate instrument in various situations;
- identify the elements of the legal framework that apply to assistance; and
- perform the responsibilities of the grants officer in accordance with regulations and statutes.

Who Should Attend: This assignment-specific course is designed for personnel involved in pre-award and post-award assistance processes, e.g., DoD personnel in a career path to become grants officers or agreements officers. The course covers grants, cooperative agreements, and Technology Investment Agreements. It also provides a brief overview of other types of assistance transactions. GRT 201 does not address “other transactions” used to carry out prototype projects—that type of “other transaction” is an acquisition instrument rather than an assistance instrument and is, therefore, outside the scope of the course.

Prerequisite: None

Recommended: Level I Contracting courses

Length: 4 class days

Method of Delivery: Resident/Local

PDS Code: BU4
